

Foundation Scotland is a not-for-profit organisation with a long history in the Scottish charity sector. We look first and foremost to deliver public benefit, and our contributions are based on cost and not profit.

When you make a donation, a percentage of your donation contributes to our running costs. The percentage is based on the type of service we deliver for you. The contribution is deducted at source when your donation is made, as well as from any Gift Aid collected on your behalf.

## Giving to your fund - service types

1. **Donor Advised Fund:** You find and recommend the charities and projects you wish to support. For this service the contribution is 4%.
