

WESTFIELD WIND FARM CARDENDEN COMMUNITY FUND

PROJECT 1

AUCHTERDERRAN GOLF CLUB GRANT REQUEST: £500

The Golf Club is aiming to replace a faded banner with a permanent, high-quality sign on the clubhouse wall, and aims to raise awareness of the club's location. This project will enhance the club's presence from on the main road, transforming how it presents itself to the local area while fostering greater pride and sense of ownership among its members. Beyond improving aesthetics, the project will potentially encourage greater engagement with the club, and contribute to the overall appearance and pride of area.

Established in 1904, Auchterderran Golf Club has served the local community for over 120 years, providing a welcoming space for golf enthusiasts to practice and play while fostering social connections and physical wellbeing. Operating from its course throughout the week during daylight hours with seasonal adjustments, the club offers activities promoting active lifestyles, meaningful social interaction, and strong community engagement. Benefiting approximately 200 members annually, the club provides valued opportunities for both sport and camaraderie within a supportive, established community environment.
